Mr. Glen Matthews
Matthews Buses Florida
4802 West Colonial Drive
Orlando, FL 32808

Dear Glen,

I just wanted to take a moment to extend our thanks for your partnership and valued leadership on your recommendation of an awesome combination of air conditioner components and compressor equipment for our Thomas C-2's. It has now been over 5 years since we first tried a combination of the TM-43 and TM-16 compressors in our new units. What an outstanding marriage of technology and reliability! The TM-43 has proven to have a much higher tolerance for the variable RPM and dynamic torque range the engine delivers, and can easily handle the pressure load that is required to keep the main body cool with a full load of students in the extremely harsh Florida heat and humidity. The overall combination of PAG 100 oil, expert installation of the compressors, better filter drivers and use of the TM-16 as the primary in dash air supply for the driver, you have created a system that has not failed in a single bus for over 5 years. Wow!!

Due to your help and guidance our District has realized a significant avoidance in bus "down time" and the cost and inconvenience to students that is associated with air conditioning breakdowns. The team at Matthews Buses continues to provide expert support, and highly professional customer service. You and your team "Rock"!

Thank you Glen and Matthews Buses Florida! You truly do help make the difference in Osceola each and every day.
